## Alwin Mittasch Prize 2012

Dear Professor Tatsumi

It gives us great pleasure to inform you, that the expert committee for the Alwin Mittasch Prize recently decided to honor you with this award. Congratulations for receiving this prestigious award.

The Alwin Mittasch Prize, a foundation of BASF SE, is awarded for outstanding research in catalysis which has not only contributed towards extending the fundamentals of catalysis but also its application in industry. Nominations had been called for worldwide and the expert committee had a difficult task to select the prize winner. This year it was decided to split the prize, the second prize winner is Prof. Dr. Graham Hutchings from Cardiff/UK.

The presentation of the prize will take place during the **15<sup>th</sup> International Congress on Catalysis 2012 in Munich on the evening of Thursday 5 July.**

For the upcoming 46. Annual Meeting of German Catalysis Researchers in Weimar, March 13-15, 2013 you will be invited to give a lecture. Details will be provided in good time.

For the press release in relation with the award ceremony we kindly ask you to send us a short description of your scientific work.

We would be glad to welcome you to the congress in Munich and meanwhile feel free to get back to us in case of any further questions you might have.

Yours sincerely,

DECHEMA  
Gesellschaft für Chemische Technik und Biotechnologie e.V.

  
Prof. Dr. Kurt Wagemann

  
Dr. Dana Demtröder
